

## U.S. government obligations income information

### Important tax information for 2021

This tax update provides information to help you properly report your state and local tax liability on income distributions you received from your mutual fund investments in 2021.

On the next page, you'll find a list of Vanguard funds that earned a portion of their investment income from obligations of the U.S. government. Direct U.S. government obligations and certain U.S. government agency obligations are generally exempt from taxation in most states.\*

### Percentage of the fund's total *income* derived from U.S. government obligations in 2021

Check with your state or local tax office or with your tax advisor to determine whether your state allows you to exclude some or all of the income you earn from mutual funds that invest in U.S. government obligations. If your state allows an exclusion, refer to the next page for the percentage of income that may be excluded for each fund in which you're invested.\*\*
